Synopsis: The *Deepwater Horizon* disaster in the Gulf of Mexico washes a cache of Cold War doomsday weapons into the hands of Jimmy Garcia, the sociopathic enforcer of a Mexican narcotics cartel. Enraged by a botched raid by U.S. Special Forces trying to find the weapons, a raid that killed his entire family, Garcia will take bloody vengeance by triggering the bombs—VX nerve gas mixed with anthrax—on American soil. Only a tragically widowed Chicago Police detective, Superstition Davis, languishing in prison for murders she did not commit, can stop Garcia's hammer blow . . . but only if she can worm herself into Garcia's confidences by going undercover to penetrate his psychopathic narcotics cartel.
